OLEG GORDEEV

🔗 **[Link To Online Resume](#)**

SENIOR SOFTWARE DEVELOPER

📞 [+972 52 804 9487](#) | ✉ [resume@oleg.mx](#) | 📍 Givatayim, Israel
🔗 [linkedin.com/in/gordeole](#)

Considered Positions:

- Senior Full-Stack Developer
- Senior Backend Developer
- Senior Frontend Developer
- Technical Lead

👤 PROFILE

Senior Full-Stack Developer with **10+ years of production experience** building scalable web applications. Deep expertise in **AI integration**, modern **TypeScript/React/NodeJS** stack, and **cloud infrastructure** (AWS, Azure).

Key Strengths:

- 🤖 **AI-First Development** — Early adopter of AI tools and LLM integration; skilled in creating AI-powered features and optimizing development workflows with machine learning
- 🏗 **Full-Stack Architecture** — Proven ability to design and implement complex systems from frontend to backend, handling high-scale applications at Wix.com
- 👥 **Technical Leadership** — Led architecture decisions, mentored teams of 50+ developers, and delivered enterprise-grade solutions
- ⚡ **Problem Solver** — 25+ years of programming experience starting from age 14, with extensive low-level expertise (C, C++, Assembler) complementing modern web capabilities

Passionate about **TDD**, **Clean Code**, and continuously exploring emerging technologies.

💼 WORK EXPERIENCE

Senior Full-Stack Developer

[Wix.com](#) | *2017 - Present*

Led full-stack development on Wix's site builder platform serving **200+ million users globally**. Architected and delivered multiple high-impact products from concept to production.

🤖 **AI-Powered Website Generation:**

- **ADI (Artificial Design Intelligence)** — Built one of the first AI-driven website builders before the LLM era. Developed sophisticated **JS/AngularJS + React** frontend architecture that generates complete, personalized websites from minimal user input
- Designed **intelligent business logic system** running entirely client-side, making real-time decisions for layout, content, and design without backend dependencies
- **Impact:** Empowered non-technical users to create professional websites in under 5 minutes

🏗 **Full-Stack Architecture & Technical Leadership:**

- **Editor for Agencies** — Architected and built from scratch using **TypeScript/React** with modular, scalable design. Led development of complex editor logic with external application integrations
- **Studio (Next-gen site builder)** — Released 2023. Led complete technical integration and system architecture for enterprise-grade product
- **Enterprise Solutions** — Delivered **NodeJS/React** enterprise applications for Fortune 500 companies on Wix infrastructure

☁ **Cloud & Scale:**

- Built systems handling **millions of concurrent users** using **AWS** and **Azure**
- Optimized performance for complex client-side applications with minimal latency

Technologies: React, Angular, TypeScript, NodeJS, AWS, Azure, AI/ML Integration

---

Senior Frontend Developer

[Amdocs](#) | *2015 - 2017*

Developed software and services for communications, media, and entertainment industry providers.

Key Contributions:

- **CI/CD Integration** — Integrated CI system into legacy build pipeline, allowing **JavaScript** tests to run automatically with each build according to **TDD principles**.

- **Development Environment Innovation** — Created a test web server for independent client-side development, empowering developers to see changes instantly on their local machines without server-side builds. This significantly accelerated development workflow.

- **Team Enablement** — Conducted live training sessions for 50+ client-side developers on writing tests and advanced JavaScript techniques, promoting TDD adoption across the organization.

- **SingTel Web Portal** — Built mobile provider portal using **Adobe Experience Manager**.

Technologies: JavaScript, TDD, CI/CD, Adobe Experience Manager

---

🎓 EDUCATION

Radioengineer

St. Petersburg State Technical University
1996 - 2000

Technician

Aviation Technical School
1993 - 1995

🛠 TECHNICAL SKILLS

AI & Machine Learning:

- AI/LLM Integration & Prompt Engineering
- AI-powered feature development
- AI workflow optimization

Full-Stack Development:

- **Frontend:** React, Angular, TypeScript, JavaScript (ES6+)
- **Backend:** NodeJS, RESTful APIs, Microservices
- **Cloud & DevOps:** AWS, Azure, CI/CD, Infrastructure as Code
- **Databases:** SQL, NoSQL, Data modeling

Low-Level Expertise:

- C, C++, Assembler (performance optimization, debugging)

Engineering Practices:

- TDD, Clean Code, Design Patterns
- Scrum, Agile, Technical Leadership
- Code Review, Mentoring, Documentation

Soft Skills:

- 	 Problem solving & system design
- 	 Team collaboration & cross-functional communication
- 	 Technical leadership & architecture decisions
- 	 Mentoring & knowledge sharing (50+ developers trained)

Bonus Skills (from personal projects):

- **Rust**/C/C++ programming for microcontrollers
- Comprehensive understanding of modern microcontroller development stacks (ESP32, Arduino, nRF52, etc.)
- Python development, including a complete implementation of a Python interpreter in JavaScript that runs in the browser
- **IoT** development (built several IoT devices using ESP32, Arduino, and nRF52 microcontrollers)
- Hands-on experience with **OpenCV** and AI/ML technologies years before the recent AI explosion
- Extensive familiarity with network protocols (TCP, IP, UDP, SMTP, POP3, IMAP, etc.)
- Thorough understanding and practical experience with security concepts (asymmetric encryption/signing, hashing, symmetric keys, E2E encryption, etc.)

# 	 PROFESSIONAL STRENGTHS

	 AI Integration Expert — Early adopter; proficient in building intelligent features and workflows
	 Full-Stack Architect — Design and implement scalable systems from database to UI
	 High-Scale Production — Built applications serving 200M+ users on cloud infrastructure
	 Technical Leader — Mentor teams, drive architecture decisions, establish best practices
	 Comprehensive Problem Solver — 25+ years of experience from low-level systems to modern web
	 Versatile — Thrived in both enterprise (Amdocs) and high-growth startup environments (Wix)

# 	 INTERESTS

Running | Drones | Snowboarding | Kiting | Building IoT devices
